Hello,

I am writing to document that I am currently attempting to attend tonight's Berwick Select Board meeting remotely via Zoom.

Despite the host having joined, I remain in the waiting room with the following message displayed:

"Host has joined. We've let them know you're here."

I am recording my screen to preserve documentation of this occurrence.

This is particularly concerning because the same issue occurred during the August 4, 2026 Select Board meeting, when I remained in the waiting room for the duration of the meeting without being admitted.

On August 12, 2026, Attorney Matt Tarasevich responded on behalf of the Town and Select Board, acknowledging that remote access had not worked as expected due to a technical problem and stating that the problem had been remedied.

I am now experiencing what appears to be the same issue again.

I respectfully request immediate assistance in gaining access to tonight's public meeting.

Please also preserve any available Zoom attendance records, waiting-room records, host activity logs, and communications relevant to this incident.

Thank you.

Respectfully,

Ryan Michaels
